ONLY THE VERY BEST QUALITY OF

MEN'S AND BOYS' WEAR

IS SOLD BY US. A STORE FULL OF THE MOST ELEGANT

Tailor, Made Suits, Overcoats, & Trunks

Tailor-Made Suits, Overcoats and Trousers

Ever displayed in this or any other city. No little handful of new goods to "sort up" and top off the accumulation of "leavings" of past seasons; no old shop-worn, fire-damaged goods reduced to pittance prices with which we seek to lure the crowd of buyers, but every department crowded with the latest styles of men's clothing, made to order, and of the best quality, world-wide and universal, while our capital and manufacturing facilities enable us to sell HONEST Clothing cheaper than any retailer on earth.

Overcoats and Suits—The Tailor-Made Suits, Spring Overcoats, Business Suits and Children's Suits are made to order, and are of the best quality. We have no cheap goods. Our clothing is not gotten up to catch gaudy eyes, but for those who cannot appreciate the difference between Overcoats and Suits which are basted together for \$4.50 a dozen and such as are

 LATE OF
NEW YORK.
 ———
The Most Successful

The illustration on the right depicts a vast, multi-story store interior, likely a department store or a large warehouse. The space is filled with numerous people, some standing and others walking, suggesting a busy shopping environment. The architecture features high ceilings, large windows, and multiple levels with railings. The overall style is that of a late 19th-century engraving or woodcut.

deceit. Your children will suffer from it. You will avoid it, you would not use a drug and use it no more. These diseases are not incurable. They are cured by our mercury.

Dr. J. C. McNIC is a graduate of the University Medical College of New York; is well known in the United States and Canada by thousands of old and young who are cured, and it is a well-known fact that for the cure of all diseases of the skin, the treatment of Sexual and Chronic Diseases, and the cure of all diseases of the blood, Manly's Mercury is the best medicine. It addresses himself particularly to those who are afflicted with these diseases.

Our handsome stock is getting known very rapidly, each day brings some new customers. They go well pleased to buy our goods. They wear our Clothing. Our windows are full of information to passers-by about the sort of goods we keep; stay, look at them, and you will be glad to buy. Expect high grades of goods at low prices. Expect high grades of Clothing from us always, and the prices 10 to 25 percent below others and in many instances lower than 15 per cent.

The great show of \$9, \$10 and \$11 Summer Suits, is something wonderful. Men's Suits at \$9, \$10 and \$11—every day. Men's Suits at \$9, \$10 and \$11 will give you the best of introduction to our wonderful

LAST EDITION.

ON THE LAKE FRONT.

The World's Fair Location Claimed to be Finally Settled.

A Splendid Location Taking in the Entire Lake Front.

CHICAGO, June 12.—The Times asserts that the World's Fair directors have practically decided to locate the exposition on the lake front. An organized effort has been made, it says, to clear the lake front of all its objectionable features by coming to a definite understanding with the Illinois Central railroad, and with this end in view all other projects, so far as site is concerned, have been left in abeyance.

The formal proposition was made to the railroad officials yesterday. Should it be accepted, it is said that the railroad company will abandon its tracks along the lake front, and leaving the lake shore at Twenty-second street, it will run out into the lake as far as the government pier, thence north just inside the breakwater to a point opposite the foot of Randolph street and thence west to its depots, warehouses and elevators. Inside of the projected new tracks a massive stone wall will be erected high enough to shut out its trucks from view of the Lake Front park. This wall is to be terraced to the westward and ornamented with plants, trees and flowers, so as to present an attractive appearance. Should the proposed plan be carried out, the World's Fair site will extend from the present street pier to the present Illinois Central pier at the foot of Fourteenth street. In consideration of the permanent fill in the basin from Twenty-second to Fourteenth street. The special merit claimed for this scheme is that it will afford the city one of the most beautiful parks in the world, and that too, in the very heart of the city. It will further forever settle all litigation as to the ground.

SMUGGLING ON BIG STEAMSHIPS. More Human Life Expenses in Trouble; Some Surprises Expected.

NEW YORK, June 12.—The recent cases of smuggling by petty officers on human line steamships culminated today in the arrest of the barkkeeper and storekeeper of the City of Chicago, of that city, on an old charge of smuggling. When the City of Chicago arrived at her pier, she was at once boarded by treasury agents, who instituted a search for contraband goods. They then arrested James Leytham, the barkkeeper, and Archer, the storekeeper. A special charge upon which these men were held is said to be the smuggling of merchandise on the last trip of the City of Chicago from Liverpool, when a quantity of contraband goods were secreted on the Holoken pier.

The captain of the City of Chicago seemed much depressed over the arrest of his two subordinates. The general impression prevailed that the arrest of Leytham and Archer was due directly to confessions made by such men as fined in Ludlow Street jail for smuggling of the City of New York, to the effect that Leytham and Archer were members of a regular band of smugglers. It was also learned that if certain passengers could be prevailed upon to testify in the case some sensational facts would be learned relative to smuggling on many other ocean steamers.

THE TRANSFER MADE. Sacs and Boxes Have a Good Bank Account.

SAC AND FOX AGENCY, June 12.—Today the papers transferring \$70,000 of land to the government will be delivered by the Sac and Fox Indians. The commission concluded its work yesterday. The allotment of lands in severalty to the Indians will be made in the next sixty days.

The Indians have already at Washington \$1,000,000, the interest on which they are to receive for each man, woman and child. Under the treaty each person will get 100 acres of land whenever he chooses to select it.

The boomers are becoming more numerous daily and the Indians are becoming restless. A delegation of Kickapoo has arrived and are counseling with their attorney relative to meeting the commission before it leaves.

Two sets of annual meeting of the Winona City Street Railway company proved to be of an extremely dry nature. Ever since the annual meeting of 1889, when St. Paul gentlemen bought in stock and took a hand in the control of affairs, there has been but feeling among the stockholders, who have been divided into two factions. The novel spectacle of two presiding officers conducting two conventions at once in the same room for the same purpose made the meeting interesting from the outset. There are, thus, if both factions are to be believed, two sets of directors and two sets of officers in the Winona City Railroad company. It is probable the courts will have to settle the dispute.

In the House. WASHINGTON, June 12.—Mr. Mills of Texas resigned his membership on the committee on rules to which he was appointed yesterday. The resignation was accepted and Mr. McMillen of Tennessee appointed to fill the vacancy. The vote was then taken on agreeing to the conference report on the anti-trust bill, and resulted—35 to 56. Mr. Stewart of Vermont raised the point of no quorum, and the speaker went to count the quorum, a call of the house was ordered. A quorum having appeared the conference report was rejected—12 to 115.

No Winnipeg Extensions. WENNEP, June 12.—General Manager Graham stated this morning that the Northern Pacific would not build any road in Manitoba this year, but merely complete the present line. Mr. Graham says the poor crops last year and the present business outlook do not warrant further extension this season, but if there are good crops this year the company will do considerable work next year. The company is disappointed at the treatment it has received at Ottawa.

RUSK TALKS.

A New York Interview Contrasted as a Presidential Point. WASHINGTON, June 12.—There is a good deal of comment in political circles over a published interview with Secretary of Agriculture Rusk, who was in New York last week, and in which he was made to say that in his opinion "President Harrison will not only be re-nominated but re-elected. There is no doubt but that he is the choice of the people, for he has given a splendid administration and made no mistakes."

Although it has been understood all along that the President discourages all talk having reference to the next election, this utterance from one of his confidential advisers, and a cautious speaker to boot, is taken as indicating that those closest to the President have already decided his re-nomination as a part of their program. Were this not so, it is said, Rusk would not have been tempted to make the suggestion that has occasioned so much comment, and which is regarded as semi-authorized.

A Church Anniversary. READING, Pa., June 12.—One hundred and fifty-five years have elapsed today since the seeds of the Universalist church in this country were planted by Dr. George de Benneville, and today in the old stone mansion near Oley, where he made his first address, an event is being observed with appropriate ceremonies. At 10 o'clock this morning the delegates to the state convention now in session here, together with representatives from the churches in Massachusetts, Connecticut, New Hampshire, Rhode Island, New York, New Jersey, Iowa, Illinois and other Western states, took carriage for Oley. On arriving at the mansion there were religious exercises, after which Rev. James Shrigley of Philadelphia delivered an oration upon the life and work of de Benneville, and Mrs. Phoebe B. Hanford of New Haven, Conn., read an original poem. The conclusion luncheon was served on the grassy bank fronting the mansion and the party returned to Reading.

New Temperance Organization. NEW YORK, June 12.—A new National Temperance Society will be organized at the closing session this evening. It is thought that such an organization will attract the support of tens of thousands of temperance people who will not affiliate with existing organizations. The main object will be to abolish all license laws, to support measures providing that any person selling liquor on Sundays, on election days, after midnight, or to minors shall be fined and imprisoned, and also providing that any person opening a saloon in any election district shall be liable to a fine of \$100, and a majority of the property owners, shall be imprisoned.

Stockholders Meet. CHICAGO, June 12.—The offices of the World's exposition were crowded this morning with stockholders when Lyman B. Gage called to order the meeting, which had been called to consider the desirability of increasing the capital stock to \$10,000,000, and changing the title to the World's Columbian exposition. Most of those present were heavy stockholders, and it was apparent that the bulk of the voting would be done by proxy. The recording of the votes was commenced without delay and the polls will be closed at 7 o'clock tonight. The indications are that both propositions will be adopted by a unanimous vote.

Encouraging Immigrants. WASHINGTON, June 12.—The department of state has been officially advised of the issue by the Spanish government of a royal decree, article 14 of which states that foreigners emigrating to the United States shall be exempt from military service, provided they work four years as agricultural laborers.

Cheyennes on the War Path. HELENA, Mont., June 12.—The Cheyenne Indians are on the war path. They have left their regular camps, and are gathering into small camps of from fifteen to twenty-five in Tepees, and are firing at settlers who are passing the most threatening demonstrations. Cattle are being shot down by the Indians through pure malice, as no parts of the animals are used for beef. One troop of cavalry and two of infantry have been sent from Ft. Keogh to the Cheyenne agency.

Annual West Point Event. WEST POINT, N. Y., June 12.—The graduating exercises of the West Point military academy took place today in the presence of a brilliant throng. Among those present were Secretary of War Proctor, Gen. Schofield and Sherman, George W. Childs, Gen. Hazen, Hon. C. W. Whitney, Mrs. Gen. Grant, Mrs. John A. Logan, Governor Gordon and wife of Georgia, Edward Everett Hale, and visitors from nineteen states.

A Monster Convention. BROOKLYN, June 12.—The largest state Sunday school convention ever held in this country came to an end this evening after a three days' session. Over 200 delegates are in attendance. The closing address was delivered this afternoon by Mrs. L. C. Roath, Rev. Lindsay Parker and Rev. Drs. J. O. Peck and R. Meredith.

Yassar's Twenty-fifth Anniversary. FORT GREENE, N. Y., June 12.—Yassar college is twenty-five years old today and the event is being celebrated with appropriate exercises. A large proportion of the 800 living graduates and the 2000 former students are in attendance. This afternoon the venerable historian, J. Benson Loening, will give an historical sketch, and George William Curtis will deliver the oration.

A Newspaper Man Dies. CHICAGO, June 12.—Charles R. Donnelly, managing editor of The Globe, died suddenly last evening.

KICKER ON THE CENSUS.

So Duluth Proves to be, and in Her Usual Very Lively Way.

Supervisor and His Assistants Held Up For Trouncing.

If Superintendent Porter could have attended the meeting at the chamber of commerce this morning he would have learned that the wheels of the census machine were woefully out of order. About fifty prominent citizens were present and some caustic comments were indulged in about the late handed manner in which the census is being taken in Duluth.

It is a notorious fact that the enumeration is in some cases at least, being made in a hasty and hurried manner. Whole buildings which, while they look like business buildings, have in fact, many rooms, have been passed over without a name being taken from them. Sometimes this is the fault of the enumerators, sometimes of the citizens themselves. There is no question but Duluth is an extremely difficult city in which to procure correct census list. Fully eighty per cent of the population are foreigners, who do not seem to realize the importance of the census taking work, or the necessity of answering even the simple question as to their name. Often the foreign born citizens do not understand the questions put to him, and to remedy this the enumerators at St. Paul and Minneapolis are given interpreters.

There is no question, either, but that the reports of the Twin cities are being mailed. And they need to be to tally with the 520 odd thousands both cities claim. Instances of this padding were given this morning.

Instead of padding the Duluth census, as it is being taken this town will not be credited with more than 10,000 people. It is a penalty of \$100 is fixed in cases where boarding house keepers or heads of families refuse to answer questions, and that they are liable to prosecution. The meeting this morning was a vigorous one. Remarks were made by Messrs. Harty, J. Miller, Secretary Thompson and others, and all seemed to think that the Duluth census was being badly handled. Many cases were cited to show that the enumerators were not faithfully discharging their duty in the Pastore-Stenson building, the 4th and Sherman boarding houses, the houses of Alderman Leary, Moore, William Craig, R. S. Payne and many others have not been visited by enumerators. Many men who have charge of men at work, have not been called upon. At the meeting at least half a dozen present had been seen by the enumerators. Mr. Gage spoke of one case where a house with eleven living in it had not been reported. Several enumerators present asked to be heard. They said they had met great difficulty in getting the names of foreigners. Many boarding house keepers had refused them information. In some of the houses of wealthy people they had been obliged to go away without receiving responses to their questions. One enumerator had walked up four flights of stairs a dozen times to get at three men.

A committee of three reputable citizens from each of the twenty-four districts was appointed to procure information as to negligence on the part of enumerators, and a meeting called for tomorrow morning, at which Superintendent Smith will be present. The matter will be laid before him, and he will be asked to give Duluth more enumerators so that the census will be taken in a thorough and complete manner and Duluth given justice.

The Herald will take the names of all those upon whom the enumerators have not called if the same will be kindly left at the office of this paper. If you have not been called upon in reported districts leave your names.

A meeting of real estate men to talk over the same trouble, will be held this evening.

Points the Moral. Mr. B. Silberstein was this morning appointed on one of the district committees to look up the enumerators. In less than an hour he found sixty people as yet unentered, and whose houses had been passed by enumerators.

A NEW FIND

Where Oro was not supposed to Exist at Duluth, Ore. has been found.

TOWER, June 12.—A new find of lead ore has recently been made about forty miles west of here and eighteen miles north of the supposed trend of the Vermilion range. Some very good specimens have been brought into Tower. The ore does not outcrop in a body, but is intermingled with chlorite slate, jaspery quartz and red oxidized earth. The strip of iron-bearing rocks is very narrow, can be traced for many miles and is flanked on both sides by a granite formation. These formations are pronounced good by iron experts.

An excursion to Ely is on for next Sunday to witness the game of ball between Duluth's 200-pounders and the Ely fly men. After the above game the Tower Maroons will play a picked nine of Ely's best baseballists. The train leaves here at 1 o'clock and returns after the games.

Fearful Scenes Prevented. DAVENPORT, Iowa, June 12.—By prompt work of thirty nurses in the Catholic Mercy hospital this morning, the forty helpless patients who were in the institution were saved from a horrible death. Before it was light, one of the sisters, who was sleeping on the fourth story of the main building, was awakened by a knock. She went to the door and found a general alarm. A general alarm was sounded, and the work of removing the patients was begun. The work was successfully accomplished. One nun called Sister Irene, and whose name was Ellen Murry, perished. Loss on building, \$10,000.

The County Commissioners. The county commissioners are in session this afternoon auditing road bills and transacting other routine business. A call for a town meeting for the election of officers for the new town of Independence, to be held June 24, was also issued. Some disposition was also made of the woman supposed to be insane who has been in jail for several days. She will probably be sent back to St. Paul.

FROM ABROAD.

A Condensed Foreign History of the Day: More Russian Plots. In England.

LONDON, June 12.—Advice received at Lisbon from Africa state that Silva Porto, captain-major of Bipe, whose suicide has been before reported, killed himself by blowing up his residence with gunpowder after the Portuguese defeat at Bipe. His body was found wrapped in a Portuguese flag in the ruins of the building.

James Munro, chief of the Metropolitan police force, has resigned in consequence of the quarrel between himself and the government regarding the regulations adopted by the police on the occasion of the demonstration in Hyde Park on Saturday.

The caucus of the conservative party called to consider the present status of matters now before parliament, was held at the Carlton club today. Lord Salisbury announced that the government would not abandon the tithe bill, the licensing bill or the Irish land purchase bill.

Honoring Cardinal Manning. LONDON, June 12.—The Parliaments members of the house of commons are preparing an address to be presented to Cardinal Manning in honor of the silver jubilee of that prince, in recognition of his services in the cause of the freedom of Ireland. The Protestants among nationalist members, including Mr. Parnell himself, are unanimous in endorsement of the eulogistic terms of the address.

Gen. Silvesteroff, a special agent of the Russian police has arrived in Paris for the purpose of obtaining information concerning the nihilists recently arrested there and if possible identifying them. In an interview today, he expressed himself as confident that the prisoners were connected with the most atrocious and dangerous conspiracy against the life of the czar and the institutions of the Russian government that nihilism had yet organized. Indeed, he has positive information that the Russian police had been frustrated the plans, but the plotters were still active, and a large number of the czar and his family would be necessary to their complete separation.

Seven shocks of earthquake have occurred in the French Pyrenees. The people are panic-stricken and have refused to re-enter their homes. Thousands of men, women and children are camped in the open fields. No loss of life is reported, but a large amount of property has been destroyed.

HAD A CONSTITUTION.

The Constitution All Found for the State of Lower California. SAN DIEGO, Cal., June 12.—United States Marshal Geo. S. Card arrived from Escondido, Lower California yesterday, where he had been making an investigation of the filibustering movement which was recently exposed.

During his investigation a copy of the provisional constitution of the new republic which the filibusters expected to use, was secured and this document has been forwarded to Washington. It asserts political freedom from the United States of Mexico and declares that the people hereby delegate their authority to a council of administration for the purpose of a war of independence and that the authority of the said council should be complete until peace should be declared, when a constitutional convention of the people should be called. All legislative, judicial and executive functions are vested in the said council, and until the declaration of peace, martial law should prevail on the peninsula. The writ of habeas corpus is declared suspended during the war of independence; the president to preside at all meetings of the council and have the casting vote.

The constitution also prescribed the duties of the commanding general, secretary-general, treasury-general, survey-general and other offices composing the council of administration.

SETTLING THE STRIKE.

The Columbus Street Railway Trouble to be Arbitrated. COLUMBUS, Ohio, June 12.—The fifty citizens invited by Mayor Bruck, to meet him in conference with a view of suggesting some plan for settling the street railway strike at 10 o'clock this morning were still in session at noon. The meeting is held with closed doors and no more by either the strikers or the company's officials will be made until it ends. The company's directors said it is impossible to operate the road with the protection offered the men, and the indications are that no cars will be started today.

The conference by an almost unanimous vote, passed a resolution favoring arbitration and appointed a committee of five to deliver it to the directors of the company this afternoon.

Maine Republicans. AUGUSTA, June 12.—Chairman Manley of the state committee called the republican state convention to order today. Over 1200 delegates were present. Gen. C. E. Littlefield moved that Governor Burleigh be renominated and he was so renominated. The Third district republican convention today nominated Seth L. Milliken of Belfast, for congress.

AT WORK TOMORROW.

Active Work on the Street Car Line: Now Let the Dirt Fly.

The first active work on the Duluth electric street railway line begins tomorrow morning. All the contracts have been let, and supplies are arriving every day. The electrical contract, as The Herald has before stated, has been given to the Thomson-Houston company, while the engines of 320 horse power each will be made by the Allis company of Milwaukee. Babcock & Wilcox, New York, will manufacture the boilers.

The active work will begin first on the extreme eastern terminus of the road, but the rails, which were made by Johnson & Co., Johnstown, Pa., are being laid along the route ready for use. Only a few men will be at work tomorrow, for no large force can be used until the poles arrive, which will be about the first of July. Their wire stringing will begin. The motor line will be entirely operated from the power of the Duluth line, and the motor company is now grading and laying rails.

The steamer Spark will leave for Lake View, Spirit Lake, from St. Paul & Duluth ship at 10 a. m. and 2:15 p. m. Saturday and Sunday.

WANTED—Furnished house for the summer. L. J. Taussig, 9 Phoenix Block.

DOUBLE YOUR MONEY

BY BUYING A NICE 10-ACRE TRACT

—ADJOINING THE PLATTING OF—

SOUTH SUPERIOR.

Largest Circulation in Duluth.

"Persons desiring THE HERALD at their homes can secure it by postal card request, or order through Telephone No. 34. Where delivery is irregular, please make immediate complaint to the office."

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

"The Washington office of The Herald is at 14 New York avenue, N. Y. Where the paper is kept on file and where The Herald correspondents will welcome visitors from the Northwest."

A BAD BOY.

It must be clear to most people by this time that the current census appropriation is stuporously insufficient, or else there is wretched chicanery in portioning it out. The gathering of the record in this city is grossly bad, and Minneapolis is complaining of carelessness and neglect as earnestly and justly apparently as we are. There was disgraceful delay and stalling in the supply of the necessary blanks here, the number of enumerators was far too small, and the pay is plainly too little to ensure a thorough and faithful count.

There are doubtless competent and trustworthy men on the working force here, but it is certain that some are, and how many the city is likely to find out to its cost and injury for ten years to come. Obviously the pay offered was not enough to secure the right kind of men, and not enough even to induce poor agents to cover the field with any approach to thoroughness. In some districts they have simply skinned the cream of the count at two cents a head, and let the balance which they had to climb for or stir about for by default. In many instances, even, they have been in such a hurry to do up and turn in their tiresome and poorly paid job, that they have passed by some of the most prominent houses and heads in their districts. Such a case of evidence to this effect has been brought before The Herald that we judge this count the most rotten we have ever known.

Scarcely one half of the entire working force on The Herald, in all its departments has yet been counted in, and inquiry in other business offices shows often a neglect or delay in the count as bad or worse. Skipping the allowance to two cents a head, and tagging on a long list of questions, of which a bare share at least is not truthfully answered, if answered at all, is almost certain to make this eleventh census of bad report. In the last census a white elephant of jumbled stuff was left over, after the patience and pocket of Uncle Sam had been strained to the limit of the old man's temper, in sorting and boiling down and chucking away, and the present census has not propped much by the example of the past. The prime thing of importance to this city and country was a full and exact count, and every other item should have been sacrificed to this essential, instead of sacrificing the main point to the other shoots. The one thing absolutely needful has been left undone or poorly done, and much has been done which was not worth doing.

For ten years to come, this city will suffer directly and inevitably from a rotten count, if such a count is allowed to stand, and its attaching injuries may be of even greater damage and larger effect. Such a count will determine our political representation and comparative weight in the affairs of state and nation for ten years to come. The head of the lakes should be the acknowledged head of northern Minnesota and the rallying point of all the country districts against the over-weening assumption and greedy grasp of the Twin cities. With a rotten count it will be a sore and a weak head for such a leader to show. Moreover the patent result of such a count without the explanation of it will be spread broadcast throughout the country to the contempt of Duluth's fair claims and certain detriment. For not only must our city count, the uncounted unjustly impresses the rest of the world with the view of unscrupulous rivals. This must not be. There should be organization at once to secure a thorough count in every district not yet returned. At the worst, in default of organization, or the grant of a census to a volunteer committee with every enumerator can do much even in one day to improve the record. We are glad that the Chamber of Commerce is stirring so actively in this matter. It concerns every one in Duluth personally and as a citizen to make this public business his own business.

The natal day of the republic is close upon us, and what is Duluth going to do about it?

The Canadian Pacific, in placing F. N. Finney at the head of the Soo road, and probably Duluth, South Shore & Atlantic railroads, as noted in this paper yesterday, evinces an inclination to do some vigorous stalling for increased traffic from the Northwest. In view of the advantage now possessed by the great Canadian line in the way of securing business from American feeders, the enticement of competition by new management of the Soo and Duluth, South Shore & Atlantic lines may be interpreted to mean more war for the American lines and a better state of things for the cities along the northern frontier.

The current number of Garden and Forest states that the white pine of the Northwest is so nearly exhausted that there is only about two years' supply of standing timber in Michigan, Wisconsin and Minnesota. According to its statement the timber remaining last year in Michigan was only about equal to the average annual cut since 1880. These statements are "important if true." The Herald is not only inclined to question

their strict accuracy, but most emphatically denounces such reports. Notwithstanding the market supply nor the price of pine lumber and timber indicate that the great pine forests of the Northwest are so nearly exhausted. Such talk above the denudation in his worst light. He has, in fact, a good deal of sound sense on his side, but when he makes such wild statements as this his value in any line is to be doubted.

It has just been decided by the Pennsylvania supreme court that a guest at a hotel or restaurant may carry away to eat at his leisure all the food that is served to him, which he is unable to eat or doesn't want to eat at the time. How our own state supreme court will rule on this vital question to guests and hotel keepers remains to be seen. But it will be well for the waiters here to keep a sharp eye on the napkins from this day on, and see that the law is not stretched to cover the table spoons as well as the food. It is likely that in the Pennsylvania decision will do away with the reckless practice of serving butter on a separate dish or putting up fruit stands in front of food parents. But till the Pennsylvania law is in force here, we warn the public that it is not safe to use this paper to wrap up cold potatoes, or any other remnants, except when the head waiter is not looking.

The Chicago News thinks that it has unearthed a dark and damnable plot to sand-bag the directors of the World's fair. There is no intention, it admits, to cripple seriously the great enterprise. But the directors are to be harassed, their motives to be impugned, and an attempt will be made to acquire political control of the house of the fair. It is deemed well to place the people of Chicago on their guard. Eternal vigilance, it seems, is to be the price of the World's fair as well as of liberty. But Chicago is willing to pay this price and all other charges, and the governor should give her a chance by calling the extra session of the legislature which will permit her to tax herself \$5,000,000 more. Plots and politics should not be put in the way of the great exhibit as stumbling blocks.

BEEN AND HEARD.

"It is not our fault," in many instances, that the census is so defective," said one of the enumerators, as we sat talking about the indignation meeting yesterday. "We have many things to contend against. In the houses of those people to whom we look for intelligent answers, we are sometimes the most bothered. In many ways, but we are made to stand in halls and seek our information through servants. What kind of reports can we make under such conditions? We are not to make up our minds to let the government do the counting, but to do it for them. Many of the foreigners who live here cannot understand our questions and we have to let it go at that."

But nevertheless, there have been some queer questions asked by the enumeration. One enumerator only informed a business man that he "had made as complete a canvass as he could afford to for two cents a head." Another enumerated a man who said to work only nights, as he hadn't time to do his duties in the day.

"Why doesn't Duluth have a smelter," said a prominent mine owner last night. "I don't mean an iron furnace this time, but a modern sized smelter. I assure if the ores of the Thunders Bay district can be taken, as they are, to Newark and elsewhere for reduction and the lead carried from Mexico they can be reduced here at a great deal less cost. There is a vast amount of valuable silver ore in the Thunders Bay district, a good share of it owned by Duluthians, and nearly all of it under control of Americans, and as soon as the new building is well started the output will be remarkable. A smelter here could handle this ore as well as the gold and silver ores of the Thunders Bay district, which are as soon as the Duluth & Winnipeg is in operation, and it would be a very profitable industry."

One of those unfortunate little lads whose fond mother insists upon attending his well-shaped head with the yellow cut of babyhood even after he has done his knee breeches and other evidences of budding manhood, attracted the attention of the pedestrians on the pedestal of Fourth street this morning. The little fellow was a manly looking lad of about 10 years while his long curls greatly added to his attractive appearance. He showed by his manner that he was not from choice but at his mother's mandate. He was followed by a crowd of jeering street urchins and seemed nearly mortified at the ridicule which his appearance excited.

With all the building going on in Duluth there never was a time when houses for rent were so scarce. In St. Paul hundreds of residences are being built, and hundreds of buildings are tenanted. It is the same in Minneapolis.

"If the Superior papers would use the same space for pointing out the advantages of the East and West Ends that they do in showing the disadvantages of Duluth, they would gain more in the end," said a gentleman who resides across the bay.

The Canadian Pacific, in placing F. N. Finney at the head of the Soo road, and probably Duluth, South Shore & Atlantic railroads, as noted in this paper yesterday, evinces an inclination to do some vigorous stalling for increased traffic from the Northwest. In view of the advantage now possessed by the great Canadian line in the way of securing business from American feeders, the enticement of competition by new management of the Soo and Duluth, South Shore & Atlantic lines may be interpreted to mean more war for the American lines and a better state of things for the cities along the northern frontier.

The current number of Garden and Forest states that the white pine of the Northwest is so nearly exhausted that there is only about two years' supply of standing timber in Michigan, Wisconsin and Minnesota. According to its statement the timber remaining last year in Michigan was only about equal to the average annual cut since 1880. These statements are "important if true." The Herald is not only inclined to question

MARINE ADDITION.

A number of choice lots for sale in this new addition to Duluth. A snap is two lots in Helm addition, for sale cheap and on reasonable terms; also lots for sale in Second division. Come in and see us and you will be sure to be suited with our bargains.

WHEELER & WARD,

Room 4, Fargusson Block.

NO UNCERTAIN SOUND.

A. H. BALLARD.

To the Editor of The Herald:
Dear Sir—I see you ask for the names of those upon whom the census enumerators have not called. No one has called on me.

A. H. BALLARD.

Another Sample.
No enumerator has called on Nos. 924 and 925 upon two families at least—E. D. Baker and wife, W. H. Williams and wife.

E. D. BAKER.

How is This?
To the Editor of The Herald:
There are eight people living in my house. So far not one of us have been visited by a census enumerator.

FRANK HIRSHO.

Sixty-Eight Unaccounted.
To the Editor of The Herald:
I, as a member of the citizens' committee, have received since yesterday afternoon, sixty-eight names of people unvisited by the census men and unaccounted of these a large number were in my own store.

B. SILVERSTEIN.

Telegraphed Mr. Smith.
To the Editor of The Herald:
In the district where I board the enumerator "finished" his work a week ago. I didn't go around at all but heard of several neglected cases and telegraphed Supervisor Smith myself. I should like to see that district, and several other ones over by competent men and checked carefully. It is a bad enumeration and I know it.

Agent Polk Directory.

A Hundred Missed Here.
To the Editor of The Herald:
No enumerator had called on the Ayer or Sherwood boarding houses up to last night, what may have been done today I don't know. There are full fifty boarders in the two houses and they are in the center of the city and could hardly be missed. The Pastoret-Stenson building has fifty or sixty roomers and they are not been visited at all.

AYER HOUSE BOARDER.

East of Chester.
To the Editor of The Herald:
In the east part of the city the enumerators have by no means done their duty. I know of forty families east of Chester brook upon whom no enumerators have called.

AYER HOUSE BOARDER.

"PURE" BAKING POWDER.

The claims for favor which this unusual Powder possesses are these:
It is officially endorsed and recommended by the Wholesale Grocers' National Association.
It is being used by the prominent Chefs of the Metropolis.
It has become popular with the leading ladies in the cities where it has been introduced.
It is good and honest; pure and popular.

THE PURE BAKING POWDER CO., ALBANY, N. Y.

UNLIKE TEA & COFFEE—GOOD FOR THE NERVES.
The claims of cocoa as a useful article of diet are steadily winning recognition. Unlike tea and coffee, it is not only a stimulant but a nourisher, and it has the great advantage of leaving no narcotic effects. Hence it is adapted to general use. The strong may take it with pleasure, and the weak with impunity.

VAN HOUTEN'S COCOA

"BEST & GOES FARTHEST."
Van Houten's Cocoa ("one third, always used") leaves no injurious effects on the system. It is a wonder, therefore, that in all parts of the world, this cocoa is recommended by medical men instead of tea and coffee or other cocoa or chocolate for daily use by children or adults, hale and sick, rich and poor.

ODDS AND ENDS.
Female barbers are numerous in Seattle.
Charles W. Hamilton, a naval surgeon, claims to have found in the seed of the kola a remedy for neurasthenia. He says that half to one drachm of the seed chewed slowly was followed in about forty minutes by complete cessation of the various symptoms of mal de mer.
The Dry Goods Chronicle gives this advice: "When you are ready to put away furs and woollens and want to guard against the depredations of moths pack them securely in paper fur sacks and tie the latter up well. This is better than camphor, tobacco or any other.
A new colonial coinage is being struck in Rome for traffic between the Italian ports and the coast of Africa.
The coins consist of 2-franc, 1-franc and 50-centime pieces, bearing the portrait of King Humbert and the value of each coin in Italian and Arabic. There are also "crowns" or 5-franc pieces, which resemble the Maria Theresa dollar, but display the effigies of King Humbert and the Emperor Menelik on the two sides.
Black ice cream is a new fad. It is colored by the addition of charcoal and the juice of Turkish prunes.
Notice.
Notice is hereby given that the only official program of the Duluth-Superior regatta is under my charge, and is the only one authorized by the association or to which the association will give its sanction. This is the only one, too, which will be correct, or which will contain the correct program of the race.

Royal Baking Powder

The United States Official Investigation

Of Baking Powders, recently made, under authority of Congress, by the Department of Agriculture, Washington, D. C., furnishes the highest authoritative information as to which powder is the best. The Official Report

Shows the ROYAL to be a cream of tartar baking powder, superior to all others in strength and leavening power.

The Royal Baking Powder is absolutely pure, made from the most wholesome materials, and produces finer flavored, sweeter, lighter, more wholesome and delicious bread, biscuit, cake, pastry, etc., than any other baking powder or leavening agent.

Food raised by it will keep sweet, moist, fresh and palatable longer than when raised by yeast or other baking powders.

Being of greater strength than any other baking powder, it is also the most economical in use.

These great qualities warrant you, if you are not using the Royal Baking Powder, in making a trial of it.

FIFTY ARE KILLED.

Out of Sixty-five Coal Miners Only Fifteen are Left Alive.

An Explosion of Fire Damp; Telegraph Notes of a Day.

PITTSBURGH, Pa., June 16.—A terrible explosion occurred at the Hill Farm mines this morning. Out of sixty-five men working in the pit only ten are known to have escaped. It is thought that the rest of the men were killed instantly by the explosion or suffocated by gas. The excitement is very great. As it is impossible to render any assistance up to the present time, the full particulars and the actual loss of life cannot be given.

A Connellville telegram says: An explosion of damp gas occurred today in the Hill mine. Fifteen have been taken out badly injured. The other fifty are supposed to be dead, but a volunteer party is digging for them. The Hill farm mine is situated about two miles from Dunbar, and is owned by the Dunbar Furnace company. The entire output of the mines is used by the Dunbar Furnace company, which is composed entirely of Eastern parties. Samuel Dickson of Philadelphia is the president.

A private dispatch to H. C. Frick of this city, says sixty-five men were in the mine and fifteen were rescued. It is believed that the others are dead.

DENIES A YARN.
Congressman Springer Exonerated from a Charge of Incompetence.

SPRINGFIELD, Ill., June 16.—Considerable excitement has been occasioned at the home of Congressman Springer by the wide publicity given to an affidavit of Highland C. Kirk, tiled with Speaker Reed, charging Mr. Springer with unworthy motives in defeating Kirk's claim against the Federal Government. The only person mentioned in substantiation of Mr. Kirk's charge is Alex. C. Jones of this city, ex-United States consul to Barranquilla, Colombia, and formerly Mr. Springer's committee clerk. An affidavit says Mr. Springer referred him to Mr. Jones, his clerk, with the statement that his name was a speculative one, and if he expected favorable action he would have to see Mr. Springer's clerk.

Mr. Kirk acted on this advice and when he told Mr. Jones what the chairman of the committee had said, Jones said: "Did Springer tell you that? The robber. I am getting sick and tired of this wide cut-throat business and I will have nothing to do with it." Mr. Jones pronounces the theory utterly untrue in every particular. He said: "The author of the affidavit evidently supposed that I was still consul at Barranquilla, far removed from cable communication, and that before my statement could reach the world his malicious charge would have worked irreparable injury to Springer."

ON THE WISCONSIN CENTRAL.
A Serious Collision Near Eau Claire; Several Narrow Escapes.

CHIPPewa FALLS, Wis., June 16.—A serious collision occurred yesterday afternoon on the Wisconsin Central short line, between here and Eau Claire, between a freight and a passenger train. Both engines were demolished and Engineer Watson of the passenger train received serious injuries about the head and a dislocated shoulder. Fireman McNulty of the freight engine, was seriously but not fatally injured.

The forward coach of the passenger train was badly smashed, the passengers in the coach almost miraculously escaping without serious injury. The second coach was considerably wrecked, and the passengers were badly shaken up. There was a panic among the men and women and children screamed from fear. The passengers walked back to town.

An Unprecedented Case.
MILWAUKEE, Wis., June 16.—Dr. Hoene was arrested yesterday afternoon. He telephoned for the police to come to his office. When they arrived he was coolly smoking a long stemmed pipe while not two feet away from him was the dead body of Miss Anna Embelbacher. The doctor said she was taken with a fit on entering his office and died. He refused to say anything further, except that he did not know her. The girl it was learned by the police, afterwards, has been peddling a patent medicine for Dr. Hoene, for some time.

A. O. U. W. Annual Session.
BOSTON, June 16.—The annual session of the supreme lodge Ancient Order of United Workmen opened here today. All the Eastern and Middle states, as well as Texas, Missouri, Iowa, Dakota, Illinois, Minnesota, Wisconsin, Colorado, Nebraska and Kansas are well represented. The annual reports show that the order has made great strides during the past year and is in a flourishing condition.

TELEGRAPH BRIEFS.
The Green Hill Presbyterian church of Philadelphia, which has maintained the largest Chinese Sunday school in the city, has decided to give up the work. The cause is said to be that stories about leprosy in the Chinese quarter have made the young lady teachers shy.

Suit has been begun by Merriam & Co. of Springfield, Mass., to restrain Texas Sittings from publishing any article bearing the title The Webster Dictionary. Merriam & Co. allege that the dictionary published by the defendant infringes upon their copyright. There would appear to be no limit to the speed of vessels, certainly none has yet been reached. The new United States torpedo boat Cushing yesterday made a mile in two minutes and three seconds. Her captain hopes to eliminate the seconds.

Major Wisman, commander of the German force in east Africa, has returned from Alexandria for Brindisi on his way to Berlin today.

ART SALE IN PARIS.

The American Dollar Batten by the French Franc.
PARIS, June 16.—One and a half million francs were realized by the sale of fifty-three paintings in the Crevier collection at Sedelmeyer's gallery today. M. Chevallier, with his ivory hammer, presided over the destinies of the various lots. The Parisian amateurs were present almost to a man, and the English-speaking contingent was fairly strong, comprising Mr. Hutchinson, president of the Art Museum, Chicago; Mr. Barney, New York, and the president director of the Sydney Museum, Mr. Montefiore. Morris K. Jesu, trustee of the Metropolitan Museum of Art, was prevented from attending the sale and sent his agent, as also did Otto Goelet, who is as much at home at an art sale as on the box seat of a four-in-hand.

The battle between the American dollar and the French franc was a feature of the sale. Many Paris dealers had received orders from the United States. Sedelmeyer had no less than ten and the auctioneer had been called the day before the sale to a similar effect, yet the American dollar got severely the worst of the struggle. Scarcely one of the collection will, for the present, at least, cross the Atlantic.

BIGGEST RAFT AFLOAT.
It is 1700 Feet in Length; Precautions for its Protection.

St. John, N. B., June 16.—A mammoth raft, which eclipses in size the Joggins raft that caused so much peril to ocean steamships, left here Saturday for New York, and is now well started down the coast. The raft is consigned to James D. Leary, who owned the great raft which went adrift in 1887. In every respect the new raft is far superior to any other that was ever built. The timber was cut just back of this city. It is composed of seven sections, each 100 feet long, 25 feet thick and 35 feet wide. The raft will draw fourteen feet of water, and will be towed by four tugboats.

The towing has been undertaken by the Laughlin Towing company. Two strong tugs have been completely refitted and strengthened for their great task, and it will require fifteen to eighteen days before the raft can be landed safely in this port. The tugs are 115 feet long and draw about fourteen feet of water.

The officers do not think they will experience any difficulty in handling the raft. They say that there might be trouble if they were caught in such a storm as this, but they are confident they will be able to handle the raft. They say that there might be trouble if they were caught in such a storm as this, but they are confident they will be able to handle the raft. They say that there might be trouble if they were caught in such a storm as this, but they are confident they will be able to handle the raft.

A "Parade" Banquet.

CHICAGO, June 16.—Thirty of the most prominent of the "Bachelor Set" of Chicago will be invited to dine at the most elegant dinner ever given in the city. The scene will be the Washington Park Club house and the host of the occasion, Hobart Chatfield Taylor, who on Thursday night forsakes single life, will be the guest of honor.

WISCONSIN, June 16.—The annual convention of the American Institute of Homoeopathy opened at the Mountain house this morning. Nearly 100 delegates are present, many being accompanied by their wives, daughters and sons, and the gathering is the largest of the kind ever held in the country. The convention will last four days and the little business to be transacted will be followed by a banquet, excursions, banquets, balls and drives.

Burglars at Moorhead.
MOORHEAD, Minn., June 16.—(Special to The Herald.)—Robert Boutman, who was bound over Saturday night to the district court on the 10th, charged with stealing eight bushels of oats from Edward Wilson on Buffalo river, is on trial today. Burglars entered C. Kyles' saloon Sunday morning through a window. They took some money, liquor, clothing and other valuables of a total value of \$30 dollars.

Testimonies.
ELKWOOD, Ohio, June 16.—Between 200 and 300 persons attended a picnic about two miles north of here yesterday given by some Cincinnati club. Boer was the attraction. Late in the afternoon a general fight occurred in which two men were fatally hurt. Both will die. Three or four were dangerously wounded and a score including several girls were badly cut and shot.

Plumbers' National Convention.
DENVER, Col., June 16.—The annual convention of the National Association of Master Plumbers opened today with a large attendance. New York and Boston have ten delegates each, Chicago nine, Philadelphia nine, San Francisco twelve, while there are large contingents from other cities. A good many of the delegates say that owing to the fact that the last winter was an extremely open one in many parts of the country there was not so much money made in the trade as in previous years.

This Means Trouble.
VICTORIA, B. C., June 16.—The sealing schooner, Little, sailed yesterday for Behring sea, where she will hunt for seals. Her owner gave the captain positive orders to hunt in forbidden waters. Other owners have also given their vessels similar instructions, and word has been sent by the vessel to schooners cruising on the west coast of Vancouver island to proceed to Behring sea. The Little Victoria fleet will enter the sea.

Chicago in Line.
CHICAGO, June 16.—The Daily News this morning prints a number of complaints indicating that the federal census which was precisely completed Saturday night, is decidedly faulty, as far as Chicago is concerned. The list of statesmen upon the list is wholly wrong from lack of time, incompetence or negligence, a great number of families have been left unvisited and that the census takers are possibly of such a wholesale character as to make the enumeration little better than a farce.

Superior Street.
Be sure and look this over.
E. W. MARKELL,
Hotel St. Louis building.

FROM OVER THE BRINY.

Cholera is Raging in Spain; Stanley and Mary Anderson.

Comte de Paris Will go to Russia; Other Foreign News.

LONDON, June 16.—Much alarm is occasioned by the continual spread of the cholera at Puebla De Rugat, Spain. The authorities are making strong efforts to stamp out the disease, but so far they have been unsuccessful. Yesterday there were four deaths from this disease and nine new cases. It is rumored from Lisbon today that infantry, artillery and marines will be sent to Mozambique by Portuguese authorities. Quilimane advises that the governor and a consular officer have been ordered to take refuge at the Italian consulate.

Henry M. Stanley and his bride will spend their honeymoon at Metchet court, Hampshire. The place is owned by Lady Ashburton, who has loaned it to Mr. Stanley.

The marriage of Mr. Antonio Navarero and Miss Mary Anderson, which will take place in this city tomorrow, will be a very quiet affair, only the relatives of the bride and groom being present. The ceremony will be of the simplest character.

Thirteen thousand dock laborers at Swansea, have struck for higher wages. The shipping business of the place, with the exception of the coal trade, is at a standstill as a consequence of the strike.

Concerning the son of the Comte De Paris he will enter the Russian army as a volunteer in the London squadron.

John Downing, Wm. O'Brien, John Redmond, have been a pointed delegates to make a tour of America in the autumn, in the interests of the Irish nationalist movement.

Henry M. Stanley has been tendered and has accepted the governor-generalship of the Congo free state. He will not enter upon his duties until the beginning of 1901.

A MATRIMONIAL MISSION.
Bringing About an Alliance in Young European Royalty.

LONDON, June 16.—Despite the fact that the most strenuous efforts have been made to keep it a secret, the royal object of the recent visit of the King of the Belgians to this country has leaked out.

According to The Court Circular the visit was simply one of courtesy to Queen Victoria (the two sovereigns being cousins) upon the occasion of her birthday. The official journal went into ecstasies of delight over his majesty's good nature in journeying from London to Belgium and back a distance of over 1200 miles, for no other purpose than to present a birthday bouquet to the Queen.

As a matter of fact, however, the King was on a matrimonial mission. He is sorely anxious to secure an alliance in part for his youngest daughter, the Princess Clementine, and for some time has been endeavoring to bring about a marriage between Prince Victor and the Princess Clementine.

The prince, who is now 35 years of age, has been the official journal went into ecstasies of delight over his majesty's good nature in journeying from London to Belgium and back a distance of over 1200 miles, for no other purpose than to present a birthday bouquet to the Queen.

The prince, who was born in 1872, is fairly good looking. She will have an immense fortune settled upon her when her marriage contract has been signed.

Although a Roman Catholic it is no secret that her royal parents are quite willing that she should become a Protestant if the change of religion should be found expedient for her temporal interests.

Those who are supposed to be in the confidence of the Prince of Wales say that it would not be surprising if a match between his son and the princess were to be arranged and announced within a couple of months.

The Burgundy.
HAYRE, June 16.—The Campaign general line steamer La Bourgeois, Capt. Prangere, from New York, June 5, which was disabled and repairing her machinery on June 8, arrived here this morning.

The steamer Barker will leave for Lake View Grove, Spirit Lake, from Duluth at 10 a. m. and 2:15 p. m. Saturday and Sunday.

A FINANCIAL CONCERN.

It Will Father the Multitudinous Villard Western Schemes.
NEW YORK, June 16.—The Times says: The North America company, which filed its articles of incorporation in the office of the New Jersey secretary of state Saturday, is the corporation which is to succeed the Oregon Transcontinental company. It will have a capital of \$50,000,000, the same amount, as the Transcontinental, but it is privileged to range over a wider field than was open to the other.

Rumors of the formation of the new company have been going the rounds for a good many weeks. Under the new arrangement it was planned to make Oregon & Transcontinental a financial company on a big scale. It was to handle business connected with the great and multitudinous interests of Henry Villard. It was to operate in securities of railways, electric companies and hosts of other enterprises.

So far as the street, and at the same time there were stories current of possible great deals among electric lighting, motor, and similar corporations. Mr. Villard's interest in electric lighting and motor companies and the Northern Pacific road, it was said, would mean a great deal to the company. Stock of the number of Villard enterprises took a boom last night.

FROM WEST DULUTH.
The Episcopalians Means Business; General News of the Day.

The ecclesiastical authorities of the Episcopal diocese of Minnesota propose to have some energetic work in West Duluth, and to build a new church there and have offered charge of it to Rev. Wm. Wilkinson of Minneapolis. It is not known whether or not he will accept. This is the third year of his rectorate at St. Andrew's, during which time he has been paying a heavy debt on the church, and has helped with raising money to pay debt on the Shalering Arms. It probably is his success in these projects at Minneapolis which made him thought of for the new plan in West Duluth.

Work on the Marinette is being pushed as fast as practicable, and soon a big rigging will be made. At the Iron Bay the full force is very busy on mining machinery, and several large plants will soon be ready to ship. Boilers for the Huntress & Brown mill are being put together in the boiler shop. A little shafting work for the Iron Bay is to be done by the small steam forges now being started at Old Superior.

The frame of the Huntress & Brown mill is to be raised in a day or two, and will be but a few weeks before it is sawing. Two or three million feet will be cut this year. A lumber is now being drawn to build a new hotel at Onota on Miller's lot.

SCANDINAVIAN SOCIETIES.
The Grand Lodge of America is to Meet at Ashland.

Editor Lange of The Scandia returned today from Ashland, where he went to look after the arrangements for the Scandinavian reunion on the 24th inst.

Ten or twelve lodges of the Scandinavian Benevolent association will meet at Ashland. Special trains have been chartered from Lapland, Marquette, Norway and other Michigan and Wisconsin places. The West Duluth lodge will leave Union depot Tuesday, 24th, at 3:30 a. m., and return about midnight. At Ashland there will be an excursion to the bay, a ball and other festivities.

This order was founded at Lapland but a few years ago. The society proved popular, and as it filled a long felt want, it grew and it is still growing at a very rapid rate. There are now lodges in half a dozen of the Northwestern states, and arrangements have been made for excursions to Ashland from a number of directions.

CITY BRIEFS.
A new string quartet has been formed, with Ernest Lachmund as the director. A series of entertainments will probably be given this season by the organization.

The following are members: Frank E. Hoare, first violin; E. Liewald, second violin; C. Tanttwater, viola; Ernest Lachmund, cellist.

Alberts Heath, whose mill is located at Neotoma, expects to move to Kenton soon as the Duluth, South Shore & Atlantic can put in the necessary work. The mill has a capacity of 50,000 feet. Kenton is south of Ontonagon. Invitations are issued for the opening reception of Palestine lodge A. F. & A. M., at Masonic Temple, Wednesday evening, June 25. The opening exercises will take place from 8:30 to 10, after which there will be dancing and refreshments.

The following variations in temperature were reported at the Pioneer Fuel company's office, Hotel St. Louis, 338 Superior street: 42° m., 64° 3 p. m., 68° 6 p. m., 82° 9 p. m., 70° 7 a. m., 55° 9 a. m., 55° 12 m., 55° maximum, 38° minimum, 54°. Daily range, 31°.

Formal notice was received this morning in the regulars entering the Erie Athletic club's four-card crew, of Buffalo, N. Y.

It is requested that there be a full attendance at the Chamber of Commerce meeting tomorrow evening.

McChes and Workleiser, the two men sentenced to Stillwater at the last term of court, will be taken to the penitentiary this evening by Deputies Klippen and McGuire. The two men adjudged insane last week will be taken to St. Peter by Deputy Kenna.

Numerous fishermen caught few fish up the Iron Range road yesterday, most of the sportmen came down on this morning's train.

Contractor Wolf will put night crews to work on the streets next week.

Over 10,000 copies of music, both classic and popular, in our stock. A full line of standard pianos. Duluth Music company.

Broke a Rib.
Yesterday at Lakoside, H. Chapin, an engineer in the employ of S. L. Rice, got into an altercation with Government Commissioner Sweeney, and one of the latter's ribs was broken. It seems Chapin unwittingly cut a small tree on the government reserve. Dr. Sweeney shouted to him to stop and later essayed to take away his axe. Chapin is a powerful man and laid the doctor on the grass, when the latter jumped up and struck Chapin, who then pushed the doctor from him. The latter fell over a boat and broke a rib. The offense, if taken to the United States court, as it can be, may be made a serious one.

A Big Snag on First Street.
We have a double corner on First street, \$1000 under the market; easy terms. Must be sold this week. Street assessments all paid. Lot 1814.

D. H. STEVENSON & Co.,
43 Exchange building.

LOTS AND ACRES.

We have a very choice lists of lots in Duluth, West Duluth and Onota. Our list of acreage comprises some of the best tracts on the market. Call and look over what we have to offer.

MERRITT & LEDDELL

Room 202 Palladio Building.

THINGS TO BE DONE.

Specifications for Work on the Proposed Canal Bridge.

Some Street Car Labor; Closing the High School Exhibit.

The plans and specifications for the substructure and masonry for the canal bridge are now in the office of the board of works where they will remain until July 1, for bids.

The various bids will be compared on the basis of the engineer's estimate of quantities of the work to be done, which are approximately as follows: 10,000 cubic yards of dredged excavation, 1000 cubic yards excavation for east pier, 7775 foundation piles, 1000 (board measure) 30 bank piles, 6000 (board measure) 30 white pine foundation platform, 2000 (board measure) 30 white pine fender timber, 3500 (board measure) 30 white pine fender plank, 4200 pounds arbutus plate iron, 2500 pounds cast iron pile shoes, about 5000 cubic yards back filling, 1200 cubic yards rip rap, 300 cubic yards Portland cement concrete, 2450 cubic yards masonry, 282 cubic feet of granite coping.

ENGINEERS WILL DELAY.

Will be 100 days before they are completed. At Work Today.

Matters concerning the Superior street electric line are rapidly assuming a tangible shape. The contract for the retaining walls and foundation for the new power house was let on Saturday to Andrew Skoglund. The Edward P. Allen company of Milwaukee has written that the engines will be completed in 100 days, and Manager Chase has accepted the proposition. At first they wanted five months, but Mr. Chase wired them that he could not wait that long, and the time was cut down to 100 days. This will make it fully Oct. 1 before the engines are in place, and before that time everything else will be in readiness.

The boilers will be completed by Aug. 10.

The work of boring the holes in the rails for the wire connections was begun today. The posts should have been shipped from Cincinnati last Thursday and should arrive here tomorrow this week. It will not require much time to place them in position, so it can be seen that the greatest delay will be caused in making the engines.

THE LAST DAY.

Pleased and interested crowds attend the Public School Exhibit.

Saturday afternoon and evening the Ray building where the public school exhibit is shown, was crowded to the doors with parents and friends of the pupils of the schools. The attendance, which has been most gratifying to Superintendent Denfeld, the teachers and the scholars has kept up today and will probably be very large this evening.

The Herald has not heretofore mentioned the work of the classes in drawing, charcoal work or penmanship, which are under the supervision of Miss Ford. For the earnest, faithful effort shown by the scholars to second her effort, and the individual taste and originality shown by many of the regular teachers, too much cannot be said in praise. The writing is in many cases beautiful, revealing method in every stroke. And when one considers the vast improvements made by eight months, shown clearly by two specimens from the same pupil, it becomes almost wonderful. This writing display makes it evident to the business men of our city that they need not fear to put the hand of a Duluth school boy or girl behind their desks.

The following are the names of those whose work is to be exhibited at the annual educational convention at St. Paul, next month, what may be called the cream of the work in the lines of penmanship, Carrie Knistrom, Eva Peterson, Mabel McMeekin, Ernest Nichols, copiers. Second grade—Grace Bland, Gertrude Olson, Charlie Olson, Billie Pearson, George Ostreick, drawing from Miss Tyler's room unsigned, original design; Richard Parmeter, Duffield Barber, Agnes Berg, copiers. Third grade—Emma Winge, Erik Olesund, Harry Woods, original design; Doris Eva, small text drawn from objects; John Willard, lines drawn from copy. Fourth grade—Daisy Hutchcraft, John Grizzly, Willie Lounsbury, Anna Wendland, Helen Larson, original design; Joseph Long, picture, cup and saucer, drawing from objects; Nellie Sautie, tub drawn from copy. Fifth grade—Wilfred Le Ross, Sophie Peterson, Agnes Benson, Louis Dvorschick, original design. Sixth grade—Anna Burnham, Willie Webster, original design; Bertha Stuhlhus, fan; Clarence Stewart, steamer, drawing from objects; Lottie Heston, working, drawing from objects; Willie Close, decorated calendar, lines drawn from copy. Seventh grade—Louis Winge, original design; Oscar Johnson, rectangular block, steps and cone, drawing from models; Lulu Ball, hollow cylinder, cone and cone, drawing from models; Nellie Cate, circular plinth and square pyramid, drawing from models; Eighth grade—Margaret Graft, Victoria Erickson, original design; Agnes Cooley, steps, cone and cylinder, drawing from models; Florence Ames, panes from copy; Ray Smith, old stone arch from copy. High school—Original designs from flower and leaf; Lizzie Harper, try; the Truelson, wild rose, Nora Haley; Florence Silberstein, glasser; Florence Barrows, hollowed flower; Glinder, try; Bert Shaw, Easter lilies; Model drawings—Alfred Wighdahl, cross, circular plinth, and cylinder; Martin McLaren, steps, cylinder and cone; Will McLennan, steps, cylinder and square pyramid; Herbert Cameron, ditto; Gertrude view of above group; Florence Bailey, steps, square pyramid and cylinder; Object drawings—Anna Olson, Anna Graft, fan and candle showing two different views; Walter Maxwell, sundial; Thomas Bartlett, decorated pitcher and glasses. From his relief—Maggie McKee, ornamental form; Clara Kenney, ornamental form; Wilhelmina Meining, serpent turned around a leafy branch; Charcoal drawings—Lizzie Allen, showing reflection; Jessie Olsen, standing in draped corner. This latter class, optional, has four members and it was agreed, only one teacher other than pupils who had no knowledge, not only of charcoal work, but of drawing and perspective as well.

Reward offered.

A tin box containing a number of papers and trinkets, valuable only to myself, was taken from my house, No. 121 East First street, last Sunday. A suitable reward will be paid for the return of the box and no questions asked.

Max J. N. Brock.

IN IRON ORE.

The Situation a Trifle Better; Pig Iron Much Better All Around.

Iron Trade Review.—The iron ore situation begins to look a trifle more favorable, and during the week there has been a slight improvement in the quantity of ore, nearly all of Bessemer grade, and including quite a block of Menominee ore. The opinion of the trade is that before very long there will have to be some purchases made by furnace men who did not supply themselves last fall, or else quite a few stacks will go out of blast by July 1. The warm weather seems to have facilitated one shipment, and the receipts are correspondingly large.

Active pig iron markets are noted at most of the central western points. At Cincinnati there was the liveliest spurt that has been witnessed since the beginning of the year. The heavy buying of the few preceding weeks resulted in an over-filling of furnace order books, and on Saturday and Monday several companies advanced their prices and others withdrew entirely. When buyers became convinced that reports as to the strong position of the furnaces were genuine, the trade was a strong push to get iron for forward deliveries. Since Monday, however, leading sellers have held firmly to their price, and the market has been paid for considerable quantities of iron without objection. In Bessemer iron and other products of lake ore, there has been an advancing tendency all the while. The whole market looks bright and there is a free disposition to buy for actual needs.

At St. Louis the market for southern coke iron is strong, with an upward tendency. Ohio softeners are quiet at unchanged values; and the same may be said of cast iron. Prices at Buffalo are a shade firmer than they have been, with a fairly active business in progress. A local advance in southern coke iron and advances in steel and steel products have been a great relief to northern manufacturers, who are holding firmer, without having made any advance, however. During the week past the market at Pittsburgh has been active on all grades of pig iron, and prices have advanced fully twenty-five to fifty cents per ton.

WEST END.

Some News of the Day at the West End of the City.

Eugene O'Leary, carpenter at Scott & Holston's mill, had his hand badly cut and bruised by a wire nail.

The ladies of the Norwegian Lutheran Sewing society will give a supper in Norman hall on the 27th and 28th of this month. An auction sale will also be held.

J. Skofstad has decided to sell out his grocery stock and engage in other business.

Another police telephone box has been placed on the corner of Twentieth avenue and Superior street.

N. N. Oja has gone to Minneapolis on a short business trip.

McDonald, W. A. McKay and Professor Schiller formed the leaders of a picnic party who went to Otika Beach yesterday. A very pleasant time was spent by all.

THE LOWER COURT.

The Monday morning riot in the police court was not up to the average of late, but those who were brought on for trial were the pleasure of studying new designs in wall paper, the court room having undergone a transformation. Chas. Gleson, Ed. Emel, Charles and Gus Johnson were pulled up in the West End yesterday for fast driving. They pleaded guilty, and were each fined \$5. J. J. Black, Thomas White, William Nickel and John Williams, plain drunks, \$5 or as they say, Martin Hansen, an unlicensed cop. It cost him \$5 this morning. Edward Sniffen, a box car ledger went up for four days. George Thompson went into a friend's room, and after arranging himself in a suit of underclothes and his linen, picked a snitch with more clothing and left. He will be arraigned later on the charge of larceny.

THE HARBOR CASE POSTPONED.

The rather complicated litigation between Paul Hieckman of Duluth, as trustee of the assigned lumber firm of Bliss & Elliott of Barnum, and their creditors on the one side and the St. Paul & Duluth on the other, was up in court Saturday. The railroad had sued Hieckman in the courts of Carlton county and entered judgment in spite of an order of the Hennepin county court declaring that as Hieckman was a true land and officer of it, he could not be sued elsewhere, and forbidding such suit. Saturday the railway company brought up for contempt. All railway was stopped, however, when the action exhibited an order of the Hennepin court directing the Hennepin court to stop proceedings until the whole matter could be heard on June 25.

Another City for Postal Service.

All through the connected country west of Astoria, toward Duluth, petitions for better postal service are being circulated and extensively signed. The country is filling up rapidly and the postal facilities are by no means equal to its needs. That what the Western Marquette Union, is supplied by "locked pouches" only, no mail car going west of Astoria. These pouches are a mail car put on the train to and from Duluth at once.

Invited to a Hanging.

Sheriff Shattuck received an invitation from C. W. Mead, sheriff of Wood county. It asked him to be present a little after 10 o'clock on June 20, that county on or about June 20—the hanging of Clinton Holden. That is, it will take place if the courts do not declare John Day Smith's law unconstitutional.

A BOOK WORTH READING.

"Along the South Shore of Lake Superior," by Julia Ralph.

A book gorgeous full of readable matter and beautiful illustrations, descriptive of the picturesque scenery along the South Shore of this great inland sea—Duluth, Apostle Islands, Lake Gogebic, Houghton, Marquette, Pictured Rocks, Sault Ste. Marie, Mackinac Island and the Iron and Copper Mining Regions of Michigan and Wisconsin—historically and descriptively treated in Julian Ralph's most readable style. Magazine style, 100 pages. Worth a place in the best libraries.

For copy of this book, call on (or address, with six cents postage), Commercial Agent, Duluth, South Shore & Atlantic Rail way, 327 West Superior street, Duluth, Minn.

Duluth News.—The wide-awake, progressive nineteenth century merchant covers walls for events, he makes the boys fearefully in large quantities from the fountain head of the manufacturer. This is the case with the enterprise catches prices and quality occurrences which would never have been brought about under other circumstances. This application fits the boys of M. S. Burrows & Co. and explains why their store is always filled and low prices. This week they are creating a panic on boys' and children's waists and blouses.

Headache, Neuritis, Dizziness, Nervousness, Spasmodic Stomach, cured by Dr. Miles' Nervine. Sample free. Dr. Miles' Nervine.

SOME SUNDAY SERMONS.

Dr. Dunn Closes His Series on the Bible and the Schools.

St. Paul's Church Reopened; The Bishop Booms Anti-Blasphemy Order.

Rev. Dr. Dunn preached last evening, to a congregation that filled the First Methodist church, the last of his series on the Bible in connection with the public schools, unless he is obliged to take it up again.

"The last few years," he said, "have greatly multiplied the number of copies of the Bible in existence. From the very day that Faust threw off the first copy the Bible was safe, for it was in the hands of the common people, and the masses will preserve the scriptures. It need not be placed in a cloister or a monastic library to be preserved. It would be as difficult to pump these great lakes dry in a single night as to destroy the Bible. The Bible is a free and open book, and it is a free and open book to all. This is a time of popular education of the masses, a time of helpful criticism, and I have been an exceedingly nervous time for imposters. Skepticism used to stand up straight and ask 'where is the proof?' but now it is a 'where is the proof?' 'Least excavations have shown the existence of such a city and skepticism never peeped. Prices at Buffalo are a shade firmer than they have been, with a fairly active business in progress. A local advance in southern coke iron and advances in steel and steel products have been a great relief to northern manufacturers, who are holding firmer, without having made any advance, however. During the week past the market at Pittsburgh has been active on all grades of pig iron, and prices have advanced fully twenty-five to fifty cents per ton."

SPORTS AND THE REGATTA.

Eastern and the South Shore Regatta; Crews for the Four; Sports in General.

The Eastern Minnesota road deserves well at the hands of the citizens of Duluth and Superior, or at least that portion which is interested in the regatta. When the regatta was first thought of the name of President Minot of that road, was the first to go on the railroad subscription and with a donation of \$500, the Eastern Minnesota road was the occasion a success. The Eastern did more. It was the first to guarantee the association excursion rates. The South Shore company also deserves recognition from Duluth and Superior for its share in putting the regatta on a sound financial footing. Its subscription of \$200,000, the four great proceeds of the road, was the first to go on the railroad subscription and with a donation of \$500, the Eastern Minnesota road was the occasion a success. The Eastern did more. It was the first to guarantee the association excursion rates. The South Shore company also deserves recognition from Duluth and Superior for its share in putting the regatta on a sound financial footing. NORTHWESTERN LINE.

ST. P., M. & O. R'Y.

is line between St. Paul, Minn-
land and Chicago, Duluth, Wash-
and all points on Lake
and to Sioux City, Omaha,
City, Denver, Spokane Falls,
and all points west.
Northwestern Line," C. St. P.,
y, will also take you to the

fields of Iowa and Nebraska, to the Hills and the wonderful oil-bearing districts of Wyoming. It is so well equipped for the passenger, or gives more attention to comfort and convenience of passenger. "The Northwestern Line," many other lines make as good and as comfortable a passenger line as this. With tourists, land-seekers, etc., in fact with all the traveling, "The Northwestern Line" is the best.

For folder showing the line and rates, call at 133 East Third street, 332 Hotel St. Louis block, DuSable Hotel, House, Minneapolis, or F. W. TEASDALE, Gen'l Pass. Agent, or G. M. SMITH, Gen'l
